District Board Resolution SoCal Example - NAM Urban Missions Resolution

The NAM Urban Center Resolution

Be it resolved that the UPCI Southern California District (SoCal) agrees to participate in a North American Missions (NAM) pilot program to reach core Urban areas in North America. The Urban Missions project will operate in partnership and with oversight of the SoCal structure as determined by the District Board. NAM agrees to provide startup funding and support for this project for a minimum of 3 years. The aim is to create a sustainable, self-funded program that will minister to the needs of the community with the ultimate goal of seeing people converted, discipled, and churches planted in these Urban cores. This resolution gives permission for NAM to begin planning and preparation for an urban center with local entities. The district NAM executive committee will be informed of all plans before they are approved and implemented, working in conjunction with the District Board.
